

## § 54.613

the urban and rural rates for the terrestrial-based alternatives.

(3) Where a rural health care provider seeks a more expensive satellite-based service when a less expensive terrestrial-based alternative is available, the rural health care provider shall be responsible for the additional cost.

(e) *Mobile rural health care providers—*

(1) *Calculation of support.* The support amount allowed under the Telecommunications Program for satellite services provided to mobile rural health care providers is calculated by comparing the rate for the satellite service to the rate for an urban wireline service with a similar bandwidth. Support for satellite services shall not be capped at an amount of a functionally similar wireline alternative. Where the mobile rural health care provider provides service in more than one state, the calculation shall be based on the urban areas in each state, proportional to the number of locations served in each state.

(2) *Documentation of support.* (i) Mobile rural health care providers shall provide to the Administrator documentation of the price of bandwidth equivalent wireline services in the urban area in the state or states where the service is provided. Mobile rural health care providers shall provide to the Administrator the number of sites the mobile health care provider will serve during the funding year.

(ii) Where a mobile rural health care provider serves less than eight different sites per year, the mobile rural health care provider shall provide to the Administrator documentation of the price of bandwidth equivalent wireline services. In such case, the Administrator shall determine on a case-by-case basis whether the telecommunications service selected by the mobile rural health care provider is the most cost-effective option. Where a mobile rural health care provider seeks a more expensive satellite-based service when a less expensive wireline alternative is most cost-effective, the mobile rural health care provider shall be responsible for the additional cost.

## 47 CFR Ch. I (10–1–14 Edition)

### § 54.613 Limitations on supported services for rural health care providers.

(a) Upon submitting a bona fide request to a telecommunications carrier, each eligible rural health care provider is entitled to receive the most cost-effective, commercially-available telecommunications service at a rate no higher than the highest urban rate, as defined in § 54.605, at a distance not to exceed the distance between the eligible health care provider's site and the farthest point on the jurisdictional boundary of the city in that state with the largest population.

(b) [Reserved]

[64 FR 66787, Nov. 30, 1999, as amended at 68 FR 74503, Dec. 24, 2003; 78 FR 13984, Mar. 1, 2013]

### § 54.615 Obtaining services.

(a) *Selecting a provider.* In selecting a telecommunications carrier, a health care provider shall consider all bids submitted and select the most cost-effective alternative.

(b) *Receiving supported rate.* Upon receiving a bona fide request, as defined in paragraph (c) of this section, from a rural health care provider for a telecommunications service that is eligible for support under the Telecommunications Program, a telecommunications carrier shall provide the service at a rate no higher than the urban rate, as defined in § 54.605, subject to the limitations applicable to the Telecommunications Program.

(c) *Bona fide request.* In order to receive services eligible for support under the Telecommunications Program, an eligible health care provider must submit a request for services to the telecommunications carrier, signed by an authorized officer of the health care provider, and shall include that person's certification under oath that:

(1) The requester is a public or non-profit entity that falls within one of the seven categories set forth in the definition of health care provider, listed in § 54.601(a);

(2) The requester is physically located in a rural area, or if the requester is a mobile rural health care provider requesting services under
